Homoeotherapy, combining homoeopathic detoxification & nutrition, is a multidimensional approach which helps minimize toxic threats and encourage improved resources within the body.

Toxicology - looking at the adverse effects of chemical, physical and biological agents - can contribute to health decline and the onset of chronic & degenerative disease.

Homoeotherapy supports the drainage of environmental toxicity while nourishing depleted or degraded organs. Our program addresses fatigued or toxic cellular and mitochondrial activity, pH balance, weakened microbiome vitality and emotional disharmony through appropriate, innovative and relevant homoeopathic direction.

**Suitable for CAM Practitioners & CAM Provider Stockists**

**Learn:**

- What lies behind chronic illness & modern maladies
- The importance of revitalised resources
- Gentle and relevant detoxification
